HURON™ ASSAULTERS SUSTAINMENT PACK – DIRECT ACTION

This low profile pack is extremely versatile with exceptionally progressive attributes. Uses high strength patented PV® in vital areas to improve pack stability when loaded. Generous amounts of webbing allow scaling the pack up or down for different mission sets and has several multi-facet adjustable internal compartments to fit different operator needs.

Design Features:
- Multiple wiring channels
- Antenna routing area
- Capable of carrying 117 radio
- Hydration storage
- Removable shoulders
- Fixed beavertail
- Administration internal pouch
- 70 or 100 oz. Hydration Bladder
- Removable spacer mesh back panel that allows ASP007 to be worn as standard pack or attached to vest/plate carrier

Wt. 2 lbs. 12.64 oz.
