The Huron™ Hot Weather Uniform Blouse is the culmination of years of materials and design research and development. Our goal was to provide operators with an extremely lightweight, quick drying, durable, hot weather uniform that would be the best performing and most comfortable combat garment they have ever worn. The end result was a combination of newly developed 3.6 oz 100% ripstop nylon, 4-way stretch twill, poly mesh, and 4-way stretch polyester with X-Static® technology. This uniform is treated with No Fly Zone® and MCS® Blocker, it provides sun protection, and with the addition of X-Static® we have added anti-microbial, no odor, no static cling, and cooling properties.

**DESIGN FEATURES**

We have incorporated ventilation points on several areas of the uniform. The use of poly mesh and poly 4-way stretch on the front breast pockets and upper back allow for air to pass through the garment during both static and active situations. This feature coupled with our highly breathable and quick drying materials allows the wearer to maintain comfort in even the harshest of environments. Additionally, the uniform integrates anti-odor/antimicrobial X-Static® in critical areas. X-Static® prevents the growth of bacteria and spread of infection, allowing the user to wear the garment for extended periods of time without washing.

**FUNCTIONALITY:**

The Hot Weather Uniform pulls from retro designs while simultaneously introducing cutting edge materials and features. We have eliminated unwanted weight through material selection and design. The finished product is 1.8 lbs. which is a full pound lighter than standard NYCO uniforms. The uniform is a slim cut which incorporates several adjustment points for a custom fit. We also used 4-way stretch twill in critical areas were additional freedom of movement is required.

**ADDITIONAL FEATURES:**

- Two Breast Pockets with Ventilation
- Bar Button Front Closure
- Two Zipper Sleeve Pockets
- Waist Cinching Tabs for fit adjustment
- Anti-Odor/Antimicrobial X-Static®
- Fully vented back panel
- Designed to work in-conjunction with the Huron Hot Weather Uniform Pant (Sold Separately)
- Sizes: Small/Reg, Medium/Reg, Large/Reg, XLarge/Reg & 2XLarge/Reg
