The **Huron™ Short Barrel Rifle Messenger Bag** is made to fit most “pistol arm brace” or Short Barrel folding stock carbines. The development of these weapons over the past few years has allowed us to design smaller, extremely low-profile bags for primary weapon concealment. Not much larger than a standard messenger bag, this bag is the ideal EDC that allows you have what you need in an emergency.

*The addition of an optional armor insert provides pistol caliber protection for you or your loved ones in an emergency.
