Design Features:
The TYR Tactical® PICO-DS Assaulters Chest Rack provides true “Mission Adaptability” for the end user. It was designed to be worn as a stand-alone rack or it can be attached to the PICO-DS Assaulters Plate Carrier via the Quick Attach Surface Mount (QASM) buckle system. Each rack comes standard with a removable H-Harness. Additionally, a removable antimicrobial/FR treated spacer mesh pad is used internally for comfort and decreased dry time in arid/tropical conditions.

It’s engineered utilizing our revolutionary patented PV® material which offers significant weight reduction with increased resistance to abrasion. Patented PV® has been tested to have 7-10 times higher abrasion resistance than standard mil spec nylon. Patented PV® also enhances the ballistic attributes of armor within the vest. Antimicrobial/FR treated padded spacer mesh is used internally for comfort.

Features:
- Four M4/M16 Mag Pouches which are secured internally with a rubberized contact-grip material when retention bungees are not in use.
- Four 9mm Pistol Mag Pouches which are secured internally with a rubberized contact-grip material when retention bungees are not in use.
- MOLLE/PALS webbing on the H-Harness allows for the attachment of carabiners and other mission specific gear.
- Adjustable/Removable shoulder and waist straps
