The TYR Tactical® Medical Fire Blanket/Litter was designed with patented flame resistant (FR) Defender® M and is sewn with high strength Kevlar® thread. The Fire Blanket/Litter is stowed in a hinged MOLLE pouch which can be attached horizontally to PALS webbing.

**FIRE BLANKET/LITTER FEATURES:**

- Coolderm™ Technology wicks moisture away from the body, minimizing discomfort in high-heat environments
- Self-extinguishes when removed from flame
- FR qualities will not wash or wear out
- Defender® M is NFPA1971-2007 and CAN/CGSB155.1 certified
- Weighted corners aid in suffocating flames
- Eight side drag handles allow the fire blanket to easily transition into a liter when necessary
- Internally sewn 4000 lb rated tubular webbing
- SpeerOpTech Design Partner

Wt: 4.37 lbs.
Dim: 6”H x 13”W x 5.5”D
Blanket/Liter Dim: 52”H x 84”W
