DESIGN FEATURES

The TYR Tactical® Jungle COMA PICO Front Plate Pocket attaches to the TYR Tactical® Jungle Load Carriage System. It also allows the operator to add a hard armor plate when mission requirements are needed. We created this item with our revolutionary PV® material for durability and weight reduction.

FEATURES

- PALS webbing for MOLLE attachment
- Hydration/Communication Tabs for routing
- Antimicrobial/FR treated padded spacer mesh on the body facing side for comfort

Available in five different styles depending on the profile (thickness) of your plate:

- PICO 1 will hold standard SAPI/ESAPI plates (approximately .75” thick)
- PICO 2 will hold Cercom & Ceradyne® plate styles (approximately .5” thick)
- PICO 3 will hold Low Vis & TYR-LV1191 plate styles (approximately .25” thick)
- PICO 4 will hold the Morgan Level III plate (approximately .75” thick)
- PICO 6 will hold TYR-HA3/7 plate styles (approximately .5” thick)
