**DESIGN FEATURES**

The TYR Tactical® EPIC™ Ballistic Collar/Yoke attaches to the back of the EPIC™-Enhanced PICO Integrated Carrier via hook and loop straps. The shoulder straps on the carrier are then fed through the channels on the Ballistic Collar/Yoke without impairing adjustability of all components or the cutaway function.

- Patented Ballistic Vein® increases load carriage performance, provides a rigid platform, reduces fatigue, stabilizes and enhances soft armor inserts.
