DESIGN FEATURES

The TYR Tactical® Fast Ballistic Helmet Cover-XP is designed to fit the FAST High Cut (XP) Ops-Core Helmet. Its streamline tailored design utilizes 500d Cordura and ALPHA which leaves complete access to the GSGM - Ground Spec Goggle Mount and Ops-Core rail accessories. Loop and button holes for wire routing points are positioned to allow the wearer flexibility for management of cables and IFF. Tie down channels for the battery box and IFF are located underneath the loop material located on the top and back of the helmet.

Sizes: Small/Medium, Medium/Large, Large/XLarge
