XFrame™ Gunfighter™ Belt-S is designed to work in conjunction with the XFrame™ Patented Dynamic Load Carriage™ system. Horizontal attachment points are positioned between the outer MOLLE platform and the interior padded spacer mesh so that the user can adjust the XFrame™ Stays (sold separately) to the proper width.

TYR Tactical® XFrame™ Gunfighter™ Belt-S

- Utilizes a single PALS/MOLLE column instead of the double version in our Standard Gunfighter™ Belt
- Allows more flexibility with how you set-up and load mission specific items.
- Patented Ballistic Vein® increases load carriage performance, provides a rigid platform, reduces fatigue, stabilizes and enhances soft armor inserts.
