The fact of the matter is, we will do whatever it takes to ensure every product we design and sell is right for you, The Next Generation Warrior™. Our cutting-edge technology and distinctive line of 100% American-made products will out-perform any other brand on the market.

MISSION-ADAPTABLE

To create Mission-Adaptable gear, we spend a tremendous amount of time and money on R&D - making sure that the feel, comfort and ergonomics of our products is right for you. These R&D efforts take us across the country to Force Modernization offices or range meetings with SOF units who give us their input on what they really need. Toward this end, we put together our Combat Development Trailer (CDT) loaded with sewing machines, materials and equipment that allows us to create new products on the spot with input from the field.

DESIGN AND ENGINEERING

Channeling a warrior-like mindset and implementing a holistic design approach, we’ve created a patent-pending, hybrid material called PV™ “Pluma Vires™”. By manufactured design, our entire line of pouches and vests weighs at least 20% less than comparable products available in today’s market. In independent testing, products made with PV™ were shown to be 7 to 10 times more abrasion resistant than any material used by competitors.

Improved Wear Resistance

Our PV™ material is a laminate of 500-denier Cordura® nylon and 200-denier Kevlar® in an ultra-tight weave to maximize abrasion and tear resistance. We use this fabric in high-wear areas such as the corners and edges of plate carrier, pouches, and other exposed components.

High Strength

PV™ material provides more than ten times the strength of Cordura® nylon, allowing us to reduce weight while at the same time improving the performance of the finished product. It offers an important structural benefit for load carriage by reducing system weight, minimizing stretch and sag, and improving durability.
Dear Friends,

My name is Jason Beck, Founder and President of TYR Tactical.

Many people have asked me, “Why the name “TYR” Tactical?” In Norse mythology, TYR is the God of War, Victory and Heroism on the battlefield. That image embodies all the things we have developed our company culture around. Your heroic efforts on the battlefield are the inspiration behind our design process. You deserve the best equipment you can possibly get to ensure victory. That is what we strive to create every day here at TYR Tactical.

Our approach is to take gear and enhance its overall functionality. This could be as simple as adjusting the pull tab on a zipper to engineering a completely new material that allows us to reduce the overall weight in our pouches, packs and ballistic vests.

Whether you are a soldier fighting terrorism in faraway lands or a federal, state, or local law enforcement officer protecting our country from threats foreign and domestic, at TYR, we consider you to be the Next Generation Warrior™. We know you are concerned with reducing weight, minimizing bulk and increasing durability. By combining our patent-pending P.V™ material and advanced design methods and engineering, we have created mission-adaptable gear that, in most cases, weighs at least 25% less and is 7 to 10 times more abrasion resistant than comparable products currently available.

To create this mission-adaptable gear, we spend a tremendous amount of time and money on R & D - making sure that the feel, comfort and ergonomics of our products is right for you. These R & D efforts take us across the country to Force Modernization offices or range meetings with SOF units who give us their input on what they really need. Toward this end, we designed and constructed our Combat Development Trailer (CDT) and loaded it with sewing machines, materials and equipment that we take to sites such as Ft. Bragg. The CDT allows us to create new products on the spot with input from the field. Here at home at my MMA training facility, I have UFC® and MMA fighters test our gear to make sure its ergonomic attributes provide increased mobility and enhanced functionality in any situation, whether standing or ground fighting. We feel this approach to design allows us to truly do the best for you the war fighter.

The fact of the matter is, we will do whatever it takes to ensure every product we design and sell is right for you, the Next Generation Warrior™. Our cutting-edge technology and distinctive line of 100% American-made products will out-perform any other brand on the market.

It is truly an honor and privilege to serve you.

Semper Fi,

Jason Beck

[Norse mythology] God of War, Victory and Heroism.
The Next Generation Warrior™.
Our Basic Plate Carrier (BPC) with adjustable, side-opening buckles is designed to allow users to easily and quickly put on or remove their armor. The front kangaroo pocket comes standard with a removable, open-top, M4 triple mag pouch with bungee retention strap. Sizes: Small, Medium, Large, XL

**BASIC PLATE CARRIER (BPC)**
- Made with TYR's patent-pending PV™ material for strength and durability
- 7 - 10 times more abrasion resistant
- 20%-50% lighter in weight than similar plate carriers
- Padded, adjustable shoulder straps with spacer mesh
- Reinforced, box-stitched drag handle
- Body-side of carrier features FR, anti-microbial spacer mesh for breathability and enhanced wearability
- Velcro® loop on top of front and back to accommodate flags, ID or other Velcro-on placards
- Back of carrier has four rows, six columns of MOLLE strapping
- Front of kangaroo pocket includes three rows, six columns of MOLLE strapping
- Plate pockets accept standard plates as well as TYR’s T-33 Plate Backers soft armor inserts
- Wt: 1.65 lbs.
  - Medium carrier without plates or soft inserts

TYR-BPC (carrier only)
$159.95

TYR-BPCAT33 (with soft armor inserts)
$399.95

Front, Side and Rear view of TYR Tactical’s Basic Plate Carrier (BPC)
The General Plate Carrier (GPC) is a sophisticated plate carrier with an abundance of standard features and accessories designed to make it adaptable to whatever your mission requires. Made entirely of TYR’s patent-pending PV™ material, it comes standard with padded shoulder straps, reinforced drag handle, side buckle kit and body-side spacer mesh with raised pad system for moisture wicking and breathability. Sizes: Small, Medium, Large, XL.

**GENERAL PLATE CARRIER (GPC)**
- Adjustable Shoulders
- Shoulder Pads
- Removable Side Buckle Kit
  - When wearing exterior cummerbund
- Front Kangaroo Pocket/Flap with triple 5.56 Mag Insert
- Front Flap is also removable and can be replaced with a 7.62 Kangaroo Pocket/Flap
- TYR’s patent-pending PV500™ material which is 7-10 times more abrasion resistant than standard Mil Spec 500d nylon
- External cummerbund easily adjusts with Velcro® to fit a wide range of body types and sizes
- External cummerbund comes with a 5” x 10” pocket to accommodate optional soft armor inserts
- External cummerbund provides location for optional side plate pocket to be added
- Wt: 2 lbs. 13 oz.
  - With cummerbunds as shown

TYR-GPC [Carrier]
$299.95
TYR-GPCINT2-T33
T-33 Ballistic Inserts [Front and Rear]
$249.95
TYR-510SI-T33
T-33 Ballistic Inserts [Side]
$139.95

Optional accessories include MOLLE-only flap, removable 7.62 triple mag pouch, T-Strap Kit for side cummerbund, padded shoulders and external cummerbund, which is the same as the base cummerbund for the PICO Carrier [see page 7], and can accommodate all of the PICO’s accessories including optional 5” x 10” soft armor pockets, side plate pockets and MOLLE panels.
Fighting men who have seen the PICO Assault Plate Carrier are in agreement that its design represents a truly revolutionary leap in the development of a platform for the Next Generation Warrior™.

When we designed the PICO, we wanted to incorporate all the ergonomic attributes that are needed for a true fighter’s vest. To achieve this, we needed to create a rugged platform that provides an extremely lightweight and ultra thin carrier while at the same time giving the wearer unprecedented comfort. The PICO is the end result. It is constructed utilizing TYR Tactical’s revolutionary PV™ material which removes excess bulk yet adds critical strength in key high-wear areas. This gives the PICO an extremely low profile. It features both internal and external cummerbunds that stabilize the carrier to the torso and distribute load to the overall carriage system. Its unique design allows the user to rig the PICO to meet the specific requirements of the mission.

**PICO ASSAULT PLATE CARRIER**

It is available in three different styles:

- **PICO 1** accommodates ESAPI plates
- **PICO 2** will hold SOF threat type plates including TYR’s SOF-1190 as well as Cercom and Ceradyne® style plates
- **PICO 3** is designed for Low Vis plates like TYR’s LV1191 or Eclipse® style plates

All three can be configured with either a fixed Admin Pouch or MOLLE across the front of the carrier. Each style comes standard with a slick flap cover to secure the external cummerbund. An optional modular kangaroo pouch with tabbed bungee cords that holds three 5.56 or 7.62 magazines for fast acquisition is available in place of the flap.

TYR-PICO-1M-T29 / 33  
$595.95  
TYR-PICO-1M-T4416  
$724.95

...unique design allows the user to rig the PICO to meet the specific requirements of the mission.
THE PICO FEATURES:

- Incredible light weight
  - Medium vest [w/soft armor] 3.68 lbs
  - Large vest [w/soft armor] 4.065 lbs.
- Anti-microbial/FR treated spacer mesh on the body side of carrier and PALS adapter panels
- Adjustable internal and external cummerbunds
- Fully adjustable shoulders with removable pad system
- External cummerbund provides platform for adding PALS Adapter Panels. Gives operator ability to switch out mission-specific gear
- Removable front flap for changing from 5.56/7.62 pouches to flat MOLLE/no MOLLE configuration.
- Accepts most standard issue and SOF specialty plates
- Adjustable shoulders with a set of padded comfort shoulder pads
- Reinforced drag handle
- FR rated spacer mesh with raised comfort pads assists in load carry and ballistic stability
- Exterior cummerbund acts as an exoskeleton platform for low profile fit even with PALS/MOLLE adapters added on
- Comes standard with 2 column and 4 column sets of PALS adapters
  - Features body-side spacer mesh for less friction and increased load stability
- 4 communication/hydration routing tabs and repair kit
- Sizes: Small, Medium, Large and XLarge

Optional Pico Accessories Available on Pages 14-20

2/4/6 Column PALS/MOLLE Adapters
The Lightweight Plate Carrier is one of the most sophisticated and revolutionary designs in plate carrier armor.

The LWPC™ was designed with TYR’s new, extremely lightweight, PV™ material in key areas (7-10 times the abrasion resistance of normal 500d Cordura®). Utilizing PV™ reduces weight dramatically when compared to other ballistic plate carriers. The LWPC™ was engineered for both long term load carriage and as a low profile plate carrier armor system. It exceeded our expectations over the course of its development and extensive testing. We believe it will exceed yours as well.

**LWPC™ FEATURES:**
- Fits standard SAPI and ESAPI Plates
- Reinforced Drag Handle
- Releasable or Fixed Style Carrier
- FR rated Spacer Mesh with raised comfort pads to assist in load carriage and ballistic stability of the system itself
- Side Buckle Kit
  - Still allows releasable cable to function
- Exterior cummerbund designed as an exoskeleton platform allows for an extremely low profile fit even with PALS/MOLLE adapters added on.

TYR-LWPC-SYS-T29/33
$650.95

TYR-LWPC-SYS-T4416
$775.95

---

...engineered for both long term load carriage and as a low profile plate carrier armor system.
LWPC™ FEATURES:

- Comes standard with one set each of 2 column and 4 column PALS adapters
  - adapters have spacer mesh on the body side to create less friction and increase load carriage stability and comfort
- 4 Communication/Hydration Routing Tabs and Repair Kit
- Front kangaroo pocket allows for an open-top, M4 triple mag pouch insert to be installed, enabling the wearer to keep magazines very low profile.

OPTIONAL ACCESSORIES:

- 2, 4, 6 and 8 Column PALS/MOLLE Adapters
- 6” x 6” Side Plate Adapters
- Ballistic Groin
- Ballistic Lower Abdomen Protector
- Ballistic Lower Back
- Ballistic Trapezius
- Ballistic Bicep/Deltoid Upper Arm Protection
- Ballistic MSAP Deltoid Soft Armor Kit
  - accepts 6” x 6” Plates
- Trapezius Ballistic System

...designed with TYR’s new, extremely lightweight, PV™ material...
The LWAS™ Lightweight Assault System is a state-of-the-art, SPEAR-cut body armor system that uses soft armor technology with advanced design features to create a lightweight, configurable, body armor system. The LWAS™ was designed utilizing TYR’s new, extremely lightweight, PV™ material in key areas (7-10 times the abrasion resistance of normal 500d Cordura®). It dramatically reduces weight when compared to other body armor and is engineered for both long term load carriage and as a low profile body armor system.

**LWAS™ FEATURES:**

- Fits standard SAPI and ESAPI Plates
- Adjustable Shoulders with a set of Padded Comfort Shoulder Pads
- Releasable or Fixed Style Carrier
- Side Buckle Kit
  - Allows full function of releasable cable

**TYR-LWAS-SYS-T29/33**
$1,195.95

**TYR-LWAS-SYS-T4416**
$1,349.95

...UFC® and MMA fighters test our gear to make sure its ergonomic attributes provide increased mobility and enhanced functionality in any situation, whether standing or ground fighting.
**LWAS™ FEATURES:**

- Exterior cummerbund is designed as an exoskeleton platform allowing for an extremely low profile fit even with PALS/MOLLE adapters added on.
- FR Rated Spacer Mesh with raised comfort pads to assist in load carriage and ballistic stability of the system itself.
- Comes standard with PALS/MOLLE Adapters
  - 2 column [1 set]
  - 4 column [1 set]
  - Adapters have spacer mesh on the body side to reduce friction and increase load carriage stability and comfort.

**OPTIONAL ACCESSORIES:**

- 2, 3, 4, 6 and 8 Column PALS/MOLLE Adapters
- Ballistic Groin
- Ballistic Lower Abdomen Protector
- Ballistic Lower Back
- Ballistic Trapezius
- Ballistic Bicep/Deltoid Upper Arm Protection
- Ballistic MSAP Deltoid Soft Armor Kit (accepts 6” x 6” Plates)
- Trapezius, Collar, Yoke and Throat Ballistic System
- Carry/Deployment Bag

Front view and rear view of the LWAS™ Lightweight Assault System
TYR Tactical is proud to introduce the Venator Ballistic Vest. The design innovations and attention to detail incorporated into this vest take it light years ahead of the competition. We believe it will soon become the new standard by which all other tactical vests will be judged.

Made with our revolutionary, patent-pending PV™ material, the Venator’s carrier is the lightest, yet most rugged available today.
VENATOR FEATURES:

- Removable/mission-adaptable front kangaroo pouch/flap with insertable 5.56 triple mag pouch
- 7.62 pouch/flap & others available
- Velcro® loop material on front and back MOLLE straps for attaching ID placards
- Reinforced drag handle
- Removable, replaceable, internal cummerbund
- Includes adjustable/adaptable external cummerbund
  - Provides breathability to lower torso during movement
  - Includes internal spacer mesh
  - Includes MOLLE-covered side panels with pockets for optional armor inserts
- Sizes: Small, Medium, Large, XL
- See pages 21-34 for pouches and other nylon accessories

...design innovations and attention to detail incorporated into this vest take it light years ahead of the competition.

TYR TACTICAL SSE KIT
The TYR Tactical SSE Kit features a Carry Bag that holds two S/W [Shoulder/Waist] Bags. We created these bags using our revolutionary patent pending PV™ material to reduce weight. The main pouch holds two quick deployable 700 sq. inch expanding bags. Each bag can hold 6 laptops. Each bag comes with a shock cord and barrel lock to secure top of bag when filled. The carry pouch can be attached with MOLLE or the concealed waist belt.
Wt: 21 oz.
Dim: 3”H x 5”W x 13”D
TYR-SSE001
$149.95

HALO NAVIGATION BOARD WITH CHEST HARNES
The TYR Tactical HALO Navigation Board was designed with direct operator feedback from US Army Special Operations soldiers. It features a semi-rigid design and helps prevent injury in the event of a hard landing. It can be positioned on the front of the jumper in 4 different configurations and is easily adjustable for jumpers from 5’ to 6’ 10” tall. This allows it to fit operators of various shapes and sizes with and without kit. The Navigation Board does not require a parachute harness for mounting.
Wt: 1 lb. 4 oz.
Dim: 6”H x 7”W x 2.5”D
TYR-CM301
$399.95
LIGHTWEIGHT ASSAULT PACK
The Lightweight Assault Pack is small in size but big on performance. Uses TYR’s Revolutionary PV™ material for strength and abrasion resistance while reducing weight. Features include:
- Raised mesh back liner with air circulation channels
- Padded shoulder straps with MOLLE strap for hanging extra gear
- Rugged, top and bottom reinforced, box stitched drag handles
- Additional top carry handle
- Two external antenna pockets
- 6 row 4 column MOLLE straps on sides
- Two internal zipper pockets (9” x 12”, 9” x 15”) and an internal open slot pocket (9” x 9”)
- Internal pocket accommodates ballistic plates
- Clear vinyl ID pocket
- 5.5” x 4” Velcro® loop area on antenna pocket flap for affixing flag or ID placards
- Two 5”H x 8”W removable zippered gear bags
- 1485 cu. inches of storage space
Dim: 16.5”H x 10”W x 9”D
Wt: 2 lbs. 9 oz.
TYR-LAP001
$199.95

MESSENGER BAG
The TYR Tactical Messenger Bag is an ultra-lightweight utility bag at only 19 ounces [500D nylon] but with an amazing 7560 sq.inches of storage. The Messenger Bag has a heavy duty shoulder strap with easy adjust straps for cross-chest, shoulder, or tight under-arm carry options as well as a shoulder pad with spacer mesh. This bag is designed to carry anything from computers, sensitive documents, or a plate carrier to clothing or other personal items. This covert carry bag has an under flap on front of main compartment that will secure your items with two easy to use 1” buckles. The inside front of the main compartment includes a panel with one large pocket and an internal sleeve.
Dim: 18”H x 28”W x 15”D
Wt.: 1 lb. 3 oz.
TYR-TG007
$74.95
The TYR Tactical Assaulters Sustainment Pack was specifically designed with end user feedback about the need for a pack that can be utilized for everyday carry and/or adapted to add on to the back of existing armor systems.

The pack features a very unique, removable, MOLLE-on comfort panel and shoulder straps so the pack can be worn over the shoulders without discomfort. With 360 cu. inches of internal storage and an additional 680 cu. inches of expandable storage with the beaver tail, the Assaulters Sustainment Pack provides the end user a huge amount of carry capacity. Other features include three hydration ports, an internal hydration bladder pocket and an additional internal zippered pocket for items like batteries, etc.

**ASSAULTERS SUSTAINMENT PACK**

The pack features TYR’s patent-pending PV™ material giving this pack a very durable lifespan of use. This pack is extremely lightweight coming in at 21.2 oz. total weight.

- Made with TYR’s revolutionary PV™ material for significant weight reduction and durability
- Independently tested to 7 to 10 times the abrasion resistance of standard Mil-Spec nylon
- Higher tensile strength than 1000D nylon
- Improved structural / load carriage performance and durability

Dim: 16”H x 8”W x 4”D

Wt: 1 lb. 5 oz.

TYR-ASP001

$199.95

TYR-ASP002

(Adapter Kit)

$19.95

"...add on to the back of existing armor systems."
The feature-laden TYR Tactical Escape and Evasion Bag is a truly revolutionary step forward in functionality and capability design. Using TYR’s patent-pending PV™ material in critical areas, the bag is lightweight yet incredibly strong, durable and abrasion resistant. The underside of the bag’s flap closure includes a 10” x 9” clear vinyl pocket for maps or papers that need protection from the elements. The flap also conceals a 9”W x 5”H x 1”D kangaroo pocket that comes standard with a removable, open-top, M4 triple mag pouch and a removable zipper-top attachment that converts the pocket into an enclosed general purpose pouch. The backside of the bag features a 10”H x 11”W x 2.5”D top-zip, gusseted pistol pouch with ambidextrous hook & loop holster. The bag has an amazing 970 cu. inch capacity and comes complete with an adjustable, padded shoulder strap, top carry strap handle, and a concealable waist belt for extra security when needed.
JUMPABLE ASSAULT PACK

The Jumpable Lightweight Assault Pack is made with PV™ material for incredible strength and abrasion resistance. The main compartment utilizes PV™ on the entire gusset of the bag and is reinforced with 2” webbing. The back wall of the inside main compartment has generous amounts of webbing to secure extra pouches. It has a pocket built to fit a 100oz hydration bladder and the pack’s internal frame. Also includes two mesh pockets. Additional internal straps secure radios, bulky gear, etc. The pack features two external front pockets and external side pockets with mesh interior pockets to keep smaller items organized.

Behind the top grab handle are two communication routing ports for wiring access to the main compartment and a port in the center to access the hydration bladder. Jump straps are top-mounted so pack can be jumped top-up to protect its contents. The straps encircle the inside of the pack in one piece for added strength and durability.

TYR-LAP018-J
$449.95

ASSAULTERS BACKPACK

The TYR Tactical 5-Day Lightweight Assaulters Backpack is a mid to large size, frameless bag with 2” padded lumbar support and modular belt loop. The inside compartment features small and large cargo pouches to accommodate various operator items with plenty of room for additional kit. Additionally, there are two large exterior compartments for easy to access to mission-essential items. Using our revolutionary patent pending PV™ material in critical areas, we cut an impressive 1.5 pounds from your load compared to similar size packs.

- Made with TYR’s revolutionary PV™ material for significant weight reduction and durability
- Independently tested to 7 to 10 times the abrasion resistance of standard Mil-Spec nylon
- Higher tensile strength than 1000D nylon
- Improved structural / load carriage performance and durability

TYR-MICO762
$3,995.95

...the newest innovation in weaponry and tactical gear. Holds 500 rounds, plus an additional 75 rounds in the feed chute.
TYR TACTICAL DM KIT

The TYR Tactical™ 7.62 Designated Marksmen Kit (DMK) was designed specifically to meet the needs of long gunners using either an SR25/M110, SCAR®-H or the LARUE® OBR. The two kits are virtually identical except for the rifle case length and the suppressor cover selection. The rifle case itself securely straps two rifles inside as well as extra mag pouches, etc. It also features a removable shoulder strap and small outer storage pocket.

The Marksmen Kit’s primary contents are built to give the user extreme mission-adaptable capability whether he is running pouches on his vest/plate carrier, COMA harness (found on pages 46-47) or needs to run triple hybrid 7.62 and 9mm pouches. The kit features TYR Tactical’s Chest Rig, CR500 that allows the user to switch from 5.56 to 7.62 mag inserts as well as the ability to remove the shoulder and waist straps and T-Strap the CR500 to his vest or plate carrier. The DMK provides true “Mission Adaptability and Scalability” to the end user.

TYR-DMK-M110
$824.95

TYR-DMK-SCARH
$795.95
TYR Tactical Special Forces Load Carriage System (TYR-SFLCS) was created with input from SOF Modernization soldiers and SOF Instructors from many of the top school houses to ensure we created a basic kit that every soldier from the SOF community should have. TYR’s philosophy was to build a SFLCS kit with a solid balance of “need and want” for what a basic load carriage system should be. Like all things from TYR, our first priority for this kit was to focus on its product engineering, weight and strength characteristics. We believe our kit provides true “Mission Adaptability and Scalability” like none other on the market today!

TYR TACTICAL COMBAT OPTIMIZED MODULAR ASSAULT SYSTEM

The COMA features TYR’s uniquely designed low profile shoulder harness that allows for exceptional load carriage and comfort. The Lower Back Panel is easily adjustable for the height of the wearer and has additional padding for lower lumbar support. The Lower Back Panel also has a low profile storage pocket to provide additional space for food, batteries, etc. that are essential but not immediate action items that can be accessed when not wearing the harness actively.

The Lower Back Panel allows for the adjustability and removal of the cummerbunds depending on the operator’s needs. They can also be removed and fitted to the PICO Plate carrier.

The cummerbunds that are already set up for your load carriage can be simply removed from the rear of the COMA Harness and placed on your PICO Plate Carrier. This allows for less overall weight to be carried and the ability to expand or contract your load carriage needs based on the mission requirements while having your kit configured for both systems.

The cummerbunds allow for TYR’s PALS/MOLLE Adapter System to be utilized for efficiency of space and load carriage capability. The COMA System comes standard with 3 Row, 8 Column Adapters but others can easily be added if needed.

Sizes: Small, Medium, Large, XLarge
Wt: 1 lb. 15 oz.

TYR-COMA001
$164.95

...features TYR’s uniquely designed low profile shoulder harness that allows for exceptional load carriage and comfort.
TYR TACTICAL CHEST RIGS

The CR Series of Chest Rigs provides true “Mission Adaptability” for the end user with its optional 5.56 or 7.62 inserts and T-Strap Kit. These chest rigs can be worn with or without armor or can be adapted to a plate carrier or tactical vest creating a flexible solution for each user’s needs.

- Adaptable magazine inserts allow the user to adjust the rig to meet mission requirements
  - 5.56 or 7.62
- Adjustable/Removable shoulder and waist straps
- Spare tabs for adjusting rig to user’s body as well as T-Strapping rig to user’s plate carrier or tactical vest
- All buckles can be used as repair buckles which are easily removed or relocated to spare tabs for better adjustability and flexibility for the end user

TYR-CR300
Wt: 12.80 oz
Three 5.56 magazine insert or Two 7.62 magazine insert
$129.95

TYR-CR400
Wt: 14.16 oz.
Four 5.56 magazine insert or Three 7.62 magazine insert
$139.95

TYR-CR500
Wt: 15.00 oz.
Five 5.56 magazine insert or Four 7.62 magazine insert
$149.95

"...can be adapted to a plate carrier or tactical vest..."
VTAC® Padded Sling

The Viking Tactics® Padded Sling was designed with the same great features as the original Viking Tactics Sling, but with added comfort for carrying heavier firearms. Designed with the shooter and soldier in mind, the Viking Tactics Padded Sling is made with a shoulder strap with closed cell foam. The forward adjustable portion of the sling remains the same as the original sling, giving you quick and easy adjustments from any position.

Wt: 1.84 oz.
VTAC-MK2
$59.95

Tactical Sling Pocket (TSP)

The TYR Tactical Sling Pocket retains your tactical sling while working during vehicle operations. The TSP keeps it from getting caught up inside the vehicle and allows you to easily extract and don it when you leave the vehicle. Works with the Magpul® CTR Stock.

Wt: 1.00 oz.
TYR-TSP200
$16.95

Combat Suspenders

TYR Tactical Combat Suspenders are made with our patent-pending PV™ material to give them extraordinary strength, abrasion resistance and durability.

- Padded, FR, anti-microbial spacer mesh for breathability and comfort during extended wear periods
- Fully adjustable to fit almost all users
- Stretch keeper loops for securing excess adjustment straps

Wt: 5.60 oz.
TYR-SUS001
$29.95
TYR/VTAC® BROKOS
BATTLE BELT

The TYR Tactical Brokos Battle Belt with T33 Soft Armor was created with our revolutionary patent-pending PV™ material for durability and weight reduction.

- Made with TYR’s revolutionary PV™ material for significant weight reduction and durability
- 7 to 10 times the abrasion resistance of standard Mil-Spec nylon
- Higher tensile strength than 1000D nylon
- Improved structural / load carriage performance and durability

The feature-laden TYR Tactical Escape and Evasion Bag is a truly revolutionary step forward in functionality and capability design. Using TYR’s patent-pending PV™ material in critical areas, the bag is lightweight yet incredibly strong, durable and abrasion resistant. The underside of the bag’s flap closure includes a 10” x 9” clear vinyl pocket for maps or papers that need protection from the elements. The flap also conceals a 9”W x 5”H x 1”D kangaroo pocket that comes standard with a removable, open-top, M4 triple mag pouch and a removable zipper-top attachment that converts the pocket into an enclosed general purpose pouch. The backside of the bag features a 10”H x 11”W x 2.5”D top-zip, gusseted pistol pouch with ambidextrous hook & loop holster. The bag has an amazing 970 cu. inch capacity and comes complete with an adjustable, padded shoulder strap, top carry strap handle, and a concealable waist belt for extra security when needed.
